CreaFILL NHC

Composito nano ibrido fotopolimerizzabile a rilascio di fluoro per otturazioni

Light-curing nano-hybrid composite with fluoride release for restorations

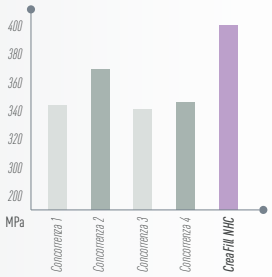

Packaging

KIT:
- 4,5 g x 5 CreaFILL NHC (A1-A2-A3-A3,5-B2)
- 4 g x 1 CreaFILL Gel Etch Bio
- 7 ml x 1 CreaFILL Bond
- Aghetti
- Istruzioni per l'uso

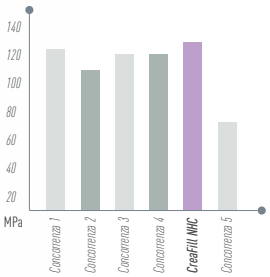

RICAMBI:
- 4,5 g x 1 syringe CreaFILL NHC
- Istruzioni per l'uso

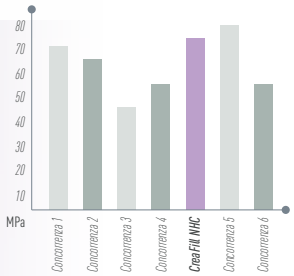

COMPRESSIVE STRENGHT

FLEXURAL STRENGHT

DIAMETRAL TENSILE STRENGTH

Indications

- Indicato per le classi III - IV - V su anteriori / *Recommended for class III-IV-V of anterior teeth*
- Indicato per le classi I - II - V su posteriori / *Recommended for class I-II-V of posterior teeth*
- Restauri diretti per anteriori e posteriori / *Direct anterior and posterior restorations*
- Ricostruzioni di monconi e cuspidi / *Core build-up*
- Splintaggi / *Slinting*
- Inlay, onlay e faccette / *Inlay, onlay and veneers*

Characteristics

- Percentuale di riempitivo in peso di ~74%, con materiale inorganico di dimensioni a partire da 7 nm / *Filler percentage by weight of ~74%, with inorganic material of size starting from 7 nm*
- Elevata resistenza alla compressione / *High compressive strenght*
- Radiopaco / *Radiopaque*
- Scala vita / *Vita shade*

Advantages

- Rilascio di fluoro / *Fluoride release*
- Eccellente chiusura marginale / *Excellent marginal closure*
- Effetto camaleonte / *Chameleon effect*
- Compatibile con spatola in acciaio inox / *Compatible with stainless steel spatula*
- Perfetta adesione / *Perfect adhesion*
